

## Trash and Comfort Station Rules & Regulations

### Trash Receptacles Required

The type, location and size of your event will indicate the number of trash receptacles you will be required to provide (see approval page). The organization sponsoring the event is responsible for disposing of all trash and clean up of the area used during the event. The area(s) will be inspected the morning after the event and the results of the inspection will determine if a refund of the deposit is warranted. For an event that will have 100 or more attendees a dumpster must be obtained by the event sponsors.

A bad experience with a portable restroom can affect the users attitude toward the event itself. Under normal conditions most persons will use sanitation facilities once every four hours. Each portable restroom facility should accommodate a maximum of 200 uses. Weather conditions and the consumption of food, liquids, beer and other alcoholic beverages will increase usage by 30-40%. Your local portable restroom contractor's experience will help you in planning properly for any event. Good planning for sanitation at special events pays! A satisfied customer will stay longer, spend more money, and return next year. Your portable restroom contractor can advise you on availability of hand washing units, handicap facilities, and many other special event items.
